Account Manager Notes

Awesome Client is a high-value B2B/B2C hybrid merchant with an above-average transaction value of \$1,698. Their chargeback rate of 0.53% slightly exceeds the platform warning threshold of 0.50%. Account manager has been in contact and the client is implementing SuperProtect's enhanced fraud scoring in July 2025, which is expected to reduce this rate. Refunds are within normal range. The client's heavy use of Amex (32.9%) results in slightly higher interchange costs. Wire/ACH volume increased in Q2, indicating growth in larger B2B orders. A commercial review is scheduled for 15 July 2025 to discuss Enterprise plan migration and a dedicated account manager. Scale plan renewal is due 1 October 2025.
