

Super Payments — Refund Policy

Effective Date: 1 January 2025 · Last Updated: 15 March 2025

1. Overview

This Refund Policy outlines the rules governing refunds processed through the Super Payments platform. It applies to all merchants ('you', 'Merchant') using Super Payments services and to their end customers ('Shoppers'). By using Super Payments, you agree to comply with this policy.

2. Merchant Refund Obligations

Merchants are solely responsible for establishing and communicating their own refund and return policies to Shoppers. Super Payments processes refunds instructed by Merchants; we do not set Merchant return windows or conditions. However, Merchants must:

- Display a clear refund/return policy on their storefront before purchase.
- Issue refunds in a timely manner (see Section 4 for processing timelines).
- Not process refunds for transactions that did not originate through Super Payments.
- Ensure sufficient balance or payout reserves to cover refunds when issued.
- Retain supporting documentation (order records, return confirmations) for at least 18 months.

3. Types of Refunds

Full Refund

The entire transaction amount is returned to the Shopper's original payment method. The Merchant's original transaction fee (e.g. 2.9% + \$0.30) is not refunded to the Merchant by Super Payments.

Partial Refund

A portion of the transaction amount is returned. Partial refunds can be issued up to the original transaction value. Multiple partial refunds may be issued as long as the total does not exceed the original amount.

Instant Refund

Available to eligible Shoppers on eligible Merchant accounts. Funds are returned within minutes via the Shopper's original payment method. A 0.5% fee applies, deducted from the Merchant's account.

Standard Refund

Refunds are processed within 5–10 business days depending on the Shopper's card network and issuing bank. Super Payments initiates the refund within 1 business day of the Merchant's instruction.

4. Refund Processing Timelines

Refund Type	Super Payments Processing	Shopper Receives Funds
-------------	---------------------------	------------------------

Credit / Debit Card	1 business day	5–10 business days
Apple Pay / Google Pay	1 business day	3–5 business days
PayPal	1 business day	1–3 business days
Klarna (BNPL)	1 business day	5–7 business days
SEPA Direct Debit	2 business days	5–10 business days
iDEAL	1 business day	1–3 business days
Bank Transfer	2 business days	3–7 business days

5. Refund Fees

Super Payments does not charge an additional fee to process standard refunds. However, the original transaction fee is not returned to the Merchant when a refund is issued. For example, if a \$100 transaction was processed at 2.9% + \$0.30, the Merchant received \$96.80. On refund, \$100 is returned to the Shopper but the Merchant bears the \$3.20 original processing fee. Instant Refunds incur an additional 0.5% fee.

6. Refund Restrictions

- Refunds cannot be issued more than 180 days after the original transaction date.
- Refunds cannot exceed the original transaction amount.
- Refunds may not be issued to a different payment method than the one used for the original purchase.
- Merchants may not use the refund function as a method of transferring funds to a third party.
- Super Payments reserves the right to decline a refund request if it suspects fraudulent intent.

7. Disputes vs. Refunds

A refund is a voluntary return of funds initiated by the Merchant. A dispute (chargeback) is a forced reversal initiated by the Shopper through their card issuer. Merchants are encouraged to proactively issue refunds rather than allow disputes to escalate, as chargebacks carry additional fees (\$15 per dispute) and can affect the Merchant's standing on the platform.

8. How to Issue a Refund

1. Log in to SuperDashboard at dashboard.superpayments.io.
2. Navigate to Transactions and locate the relevant transaction.
3. Click 'Refund' and choose Full or Partial, and enter the amount.
4. Confirm the refund. A confirmation email is sent to you and, optionally, to the Shopper.
5. Track refund status under Transactions > Refunds.

Refunds can also be initiated via the Super Payments API. See docs.superpayments.io/refunds for full API documentation.

9. Policy Updates

Super Payments may update this policy at any time. Merchants will be notified by email at least 14 days before any material changes take effect. Continued use of the platform after the effective date constitutes acceptance of the revised policy. The latest version is always available at superpayments.io/refund-policy.

10. Contact

Questions about this policy should be directed to: legal@superpayments.io or Super Payments, Inc., 450 Mission Street, Suite 800, San Francisco, CA 94105, USA.
